T

South American
Cryptograms
Collected by A. Thayer
1905–1906.

N. B. Music and
Repetitae are in
Book II at end.

Contents of first package
from Concepcion, Chili,
received by mail
Jan. 1906

Rocella portentosa
Coenogonium Lefebvrii
Lobaria Hydrophorus
Cystocoleus conchoides
Verrucaria prasina
Arthopyrenia Hyperici
Pucciniea Philadelphi
Puccinia perforans

Puccinia sp. on
Leguriaza A.
Melanomma Chusqueae

Verolas decolor

Cystocoleus Solivae fin.

Contents of Box
received March 1906

Algae.

Cylindrosporium majus.
Ptilonema laminiforme
Nostoc (commune?) not
in very good condition
Scytosiphon Lomentaria
Adenocystis Lessonii
Desmarestia herbacea
Glossophora Kunthii
Macrocystis pyrifera
Durvillea utilis (of the
Belfast is perforated
It is D. Harveyi.
Codium adhaerens.
Ceramium rubrum

Centrocerus clavulatum

Dermatocarpus
dichotomus
+ parasite

Gymnogongrus
norvegicus

Gracilaria confervoides

Gracilaria multipartita

Grateloupia filicina

Hookeria pulchra

Heterosiphonia
subsecundata Lahr.

Plocamium
coccineum

Gigartina chamissii

Bostrychia Hookeri
var. fastigiata

Filamentous Red algae on
rocks with Cochlicus.

Gigartina Radula

Frenteschiella with
Thelocheiston.

Polysiphonia denudatica.
a mere fragment.

(Corallines sent
to Foslie May 1907
and names given in
his letter of June 1907)

No 8. Lithophyllum
decipiens. Fosl. n. sp. Corral
No. 9. Lithothamnion exasperatum
Punta Arena Foslie n. sp.
No. 10. Lithophyllum
accedens. Fosl. n. sp.
San Vincent,
No. 11 Lithophyllum discordeum
Punta Arenas. Fosl.

Lichens

Roccella porrentosa (Mont.) Darb.

Lecanora erythrosma Nyl.
